MODEL : PREDATOR II

Experience 64-bit mobile computing with the Predator II

The Predator II features AMD's highly acclaimed Turion64 X2 dual-core processing mobile processor to deliver true multi-tasking capabilities in a thin and light notebook design. Play the latest 3D games or watch your favourite movies whilst downloading the hottest music without any compromise to performance. You'll enjoy amazing visual clarity too thanks to the high-contrast X-Glass screen which displays deep, rich and vivid images. With Bluetooth functionality as standard, you can connect wirelessly to various communication devices such like PDAs and mobile phones and work for even longer on the go with the option of a 9 cell battery.
