

# MODEL : TERMINATOR

# EXTREME INNOVATIVE POWERFUL

## Start a Mobile Revolution with the Terminator

The best just got better with the Terminator, the world's first super-notebook to support nVidia's revolutionary SLI graphics architecture. Equipped with two nVidia 7800GTX graphics cards with 256Mb of memory (512Mb SLI-enabled), it offers up to double the graphics performance benefits of a desktop PC. Featuring AMD's mobile Turion 64 processor and a massive 19" 290-nits high-contrast X-Glass widescreen, this is the must-have notebook for extreme gaming, 3D simulation and other graphics-intensive applications. Eliminate video imperfections and blurred images and get ready to experience the most realistic visual imagery ever seen on a notebook computer. If you want your friends to go green with envy whilst pioneering a mobile revolution, the Terminator is your golden ticket.
